Nordstrom Second Quarter 2017 Earnings Achieved Expectations

August 10, 2017 at 4:05 PM EDT

Results Reflected Positive Anniversary Sale, Inventory and Expense Execution

SEATTLE--(BUSINESS WIRE)--Aug. 10, 2017-- Nordstrom, Inc. (NYSE: JWN) today reported earnings per diluted share for the second quarter ended July 29, 2017 was \$0.65, which achieved Company expectations.

Total Company net sales increased 3.5 percent and comparable sales increased 1.7 percent, compared with the same quarter last year. The Company's Anniversary Sale, historically its largest event of the year, performed better than recent trends. Nordstrom continued its progress in executing its customer strategy while maintaining discipline around inventory and expenses:

- As a result of the Company's ongoing efforts to provide newness and limited-distribution product to customers, Nordstrom proprietary labels represented three of the top five selling brands during the Anniversary Sale.
- In executing its digital strategy, the Company delivered online sales growth of 20 percent at Nordstrom.com, reflecting its largest volume day in company history, and 27 percent at Nordstromrack.com/HauteLook.
- The Nordstrom Rewards loyalty program continues to play an important role in reaching new customers and strengthening existing customer relationships. The Company has 9.4 million active Rewards customers in the U.S. and Canada, up approximately 50 percent, from 6.2 million a year ago. Sales from Nordstrom Rewards customers represented 56 percent of second quarter sales, compared with 48 percent a year ago.

SECOND QUARTER SUMMARY

- Second quarter net earnings were \$110 million and earnings before interest and taxes ("EBIT") were \$217 million, or 5.8 percent of net sales, compared with net earnings of \$117 million and EBIT of \$221 million, or 6.1 percent of net sales, during the same period in fiscal 2016.
 - Retail EBIT decreased \$27 million compared with the same quarter last year, primarily reflecting planned technology, occupancy and supply chain expenses supporting the Company's growth initiatives.
 - Credit EBIT increased \$23 million through the strategic partnership with TD Bank. Credit card revenues increased 30 percent, which included a reduction in amortization expenses of \$5 million related to the sale of the credit card portfolio in October 2015.
- Total Company net sales of \$3.7 billion for the second quarter increased 3.5 percent compared with net sales of \$3.6 billion during the same period in fiscal 2016. Total Company comparable sales for the second quarter increased 1.7 percent compared with the same quarter last year.
 - In the Nordstrom brand, including U.S. and Canada full-line stores and Nordstrom.com, net sales when combined with Trunk Club, increased 2.4 percent and comparable sales increased 1.4 percent. The top-performing merchandise categories were Women's Apparel and Beauty. The East was the top-ranking U.S. geographic region.
 - In the Nordstrom Rack brand, which consists of Nordstrom Rack stores and Nordstromrack.com/HauteLook, net sales increased 9.8 percent and comparable sales increased 3.1 percent. The East was the top-ranking geographic region.
- Retail gross profit, as a percentage of net sales, of 34.1 percent decreased 25 basis points compared with the same period in fiscal 2016. This primarily reflected higher occupancy expenses related to new store growth for Nordstrom Rack and Canada in addition to higher loyalty expenses during the Anniversary Sale. This was partially offset by improved merchandise margins, reflecting the continued strength in regular price selling. Net sales growth of 3.5 percent exceeded inventory growth of 2.2 percent.
- Selling, general and administrative expenses, as a percentage of net sales, of 30.3 percent increased 46 basis points compared with the same period in fiscal 2016, reflected planned technology and supply chain expenses associated with the Company's growth initiatives.
- Return on invested capital ("ROIC") for the 12 fiscal months ended July 29, 2017 was 8.9 percent compared with 9.1 percent in the prior 12-month period. Results for the current period were negatively impacted by approximately 310 basis points due to the Trunk Club non-cash goodwill impairment charge in the third quarter of 2016. A reconciliation of this non-GAAP financial measure to the closest GAAP measure is included below.

EXPANSION UPDATE

To date in fiscal 2017, the Company opened six Nordstrom Rack stores and closed one full-line store. The Company opened the following stores in the second quarter of 2017:

FISCAL YEAR 2017 OUTLOOK

The Company updated its annual outlook expectations for earnings per diluted share to incorporate second quarter results. Nordstrom's current expectations for fiscal 2017 are as follows:

	Prior Outlook	Current Outlook
Net sales (percent)	3 to 4 increase	Approximately 4
Comparable sales (percent)	Approximately flat	Approximately flat
Retail EBIT (million)	\$780 to \$840	\$790 to \$840
Credit EBIT (million)	Approximately \$140	Approximately \$145
Earnings per diluted share	\$2.75 to \$3.00	\$2.85 to \$3.00

The Company's outlook includes the following considerations:

- The 53rd week is expected to add approximately \$200 million to total net sales and approximately \$0.02 to \$0.03 to earnings per diluted share. The 53rd week is not included in comparable sales calculations.
- The Anniversary Sale, historically the Company's largest event of the year, spanned across the second and third quarters, consistent with the timing in fiscal 2016
- The outlook assumptions for Retail EBIT when compared with fiscal 2016 include increased occupancy expenses related to new stores (Nordstrom Rack, Canada and Manhattan flagship men's store) in addition to higher supply chain and technology costs
- Retail EBIT in fiscal 2016 included the following non-operational items: higher credit chargeback expenses associated with an industry change in liability rules and severance charges totaling \$30 million, or \$0.10 in the first quarter; an impairment charge related to Trunk Club of \$197 million in the third quarter; and a non-operational legal settlement gain of \$22 million, or \$0.10, in the fourth quarter
- The outlook assumptions for Credit EBIT when compared with fiscal 2016 incorporate higher credit card revenues including a reduction in amortization expenses of \$18 million related to the sale of the credit card portfolio
- The income tax rate is estimated at 40 percent for fiscal 2017
- Diluted shares outstanding, excluding any future share repurchases, are estimated at 169 million for fiscal 2017

RETURN ON INVESTED CAPITAL (NON-GAAP FINANCIAL MEASURE)

(unaudited; dollar amounts in millions)

We believe ROIC is a useful financial measure for investors in evaluating the efficiency and effectiveness of our use of capital and believe ROIC is an important component of shareholders' return over the long term. In addition, we incorporate ROIC in our executive incentive compensation measures. For the 12 fiscal months ended July 29, 2017, our ROIC decreased to 8.9% compared with 9.1% for the 12 fiscal months ended July 30, 2016. Results for the current period were negatively impacted by approximately 310 basis points due to the Trunk Club non-cash goodwill impairment charge in the third quarter of 2016.

We define ROIC as our net operating profit after tax divided by our average invested capital using the trailing 12-month average. ROIC is not a measure of financial performance under generally accepted accounting principles ("GAAP") and should be considered in addition to, and not as a substitute for, return on assets, net earnings, total assets or other financial measures prepared in accordance with GAAP. Our method of determining non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to ROIC is return on assets. The following is a reconciliation of the components of ROIC and return on assets:

	12 Fiscal Months Ended	
	July 29, 2017	July 30, 2016
Net earnings	\$ 364	\$ 424
Add: income tax expense	346	261
Add: interest expense	139	121
Earnings before interest and income tax expense	849	806
Add: rent expense	230	190
Less: estimated depreciation on capitalized operating leases ¹	(123)	(101)
Net operating profit	956	895
Less: estimated income tax expense	(438)	(341)
Net operating profit after tax	\$ 518	\$ 554
Average total assets	\$ 8,018	\$ 8,332
Less: average non-interest-bearing current liabilities ²	(3,173)	(3,062)
Less: average deferred property incentives and deferred rent liability ²	(646)	(549)
Add: average estimated asset base of capitalized operating leases ³	1,636	1,388
Average invested capital	\$ 5,835	\$ 6,109
Return on assets⁴	4.5 %	5.1 %
ROIC⁴	8.9 %	9.1 %

¹ Capitalized operating leases is our best estimate of the asset base we would record for our leases that are classified as operating if they had met the criteria for a capital lease or we had purchased the property. Asset base is calculated as described in footnote 3 below.

² Balances associated with our deferred rent liability have been classified as long-term liabilities in the current period.

³ Based upon the trailing 12-month average of the monthly asset base. The asset base for each month is calculated as the trailing 12 months of rent

expense multiplied by eight. The multiple of eight times rent expense is a commonly used method of estimating the asset base we would record for our capitalized operating leases described in footnote 1.

⁴ Results for the 12 fiscal months ended July 29, 2017 include the \$197 impact of the Trunk Club non-cash goodwill impairment charge in the third quarter of 2016.

ADJUSTED DEBT TO EBITDAR (NON-GAAP FINANCIAL MEASURE)

(unaudited; dollar amounts in millions)

Adjusted Debt to earnings before interest, income taxes, depreciation, amortization and rent ("EBITDAR") is one of our key financial metrics, and we believe that our debt levels are best analyzed using this measure. Our goal is to manage debt levels to maintain an investment-grade credit rating and operate with an efficient capital structure. In evaluating our debt levels, this measure provides a reflection of our credit worthiness that could impact our credit rating and borrowing costs. We also have a debt covenant that requires an adjusted debt to EBITDAR leverage ratio of no more than four times. As of July 29, 2017, our Adjusted Debt to EBITDAR was 2.4, compared with 2.6 as of July 30, 2016.

Adjusted Debt to EBITDAR is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, debt to net earnings, net earnings, debt or other financial measures prepared in accordance with GAAP. Our method of determining non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to Adjusted Debt to EBITDAR is debt to net earnings. The following is a reconciliation of the components of Adjusted Debt to EBITDAR and debt to net earnings:

	2017 ¹	2016 ¹
Debt	\$ 2,740	\$ 2,782
Add: estimated capitalized operating lease liability ²	1,841	1,518
Less: fair value hedge adjustment included in long-term debt	—	(18)
Adjusted Debt	\$ 4,581	\$ 4,282
Net earnings	\$ 364	\$ 424
Add: income tax expense	346	261
Add: interest expense, net	136	121
Earnings before interest and income taxes	846	806
Add: depreciation and amortization expenses	646	617
Add: rent expense	230	190
Add: non-cash acquisition-related charges	204	7
EBITDAR	\$ 1,926	\$ 1,620
Debt to Net Earnings	7.5	6.6
Adjusted Debt to EBITDAR	2.4	2.6

¹ The components of Adjusted Debt are as of July 29, 2017 and July 30, 2016, while the components of EBITDAR are for the 12 months ended July 29, 2017 and July 30, 2016.

² Based upon the estimated lease liability as of the end of the period, calculated as the trailing 12 months of rent expense multiplied by eight. The multiple of eight times rent expense is a commonly used method of estimating the debt we would record for our leases that are classified as operating if they had met the criteria for a capital lease or we had purchased the property.

FREE CASH FLOW (NON-GAAP FINANCIAL MEASURE)

(unaudited; amounts in millions)

Free Cash Flow is one of our key liquidity measures, and when used in conjunction with GAAP measures, provides investors with a meaningful analysis of our ability to generate cash from our business. For the six months ended July 29, 2017, we had Free Cash Flow of \$115 compared with \$303 for the six months ended July 30, 2016.

Free Cash Flow is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, operating cash flows or other financial measures prepared in accordance with GAAP. Our method of determining non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to Free Cash Flow is net cash provided by operating activities. The following is a reconciliation of net cash provided by operating activities to Free Cash Flow:

	Six Months Ended	
	July 29, 2017	July 30, 2016
Net cash provided by operating activities	\$ 574	\$ 856
