## Nordstrom Reports Second Quarter 2022 Earnings

- *Total Company sales increase 12 percent*
- *Reports EPS of \$0.77 and adjusted EPS of \$0.81<sup>1</sup>*
- *Updating fiscal year outlook to reflect revised plans for second half*

**SEATTLE – August 23, 2022** – Nordstrom, Inc. (NYSE: JWN) today reported second quarter net earnings of \$126 million and earnings per diluted share (“EPS”) of \$0.77 for the quarter ended July 30, 2022. Excluding costs associated with the wind-down of Trunk Club, the Company reported adjusted earnings per share of \$0.81.<sup>1</sup>

For the second quarter, net sales increased 12.0 percent versus the same period in fiscal 2021, exceeding pre-pandemic sales levels, and gross merchandise value (“GMV”) increased 12.2 percent. Anniversary Sale timing, with one week shifting from the third quarter to the second quarter, had a positive impact of approximately 200 basis points on net sales compared with 2021. During the quarter, Nordstrom banner net sales increased 14.7 percent and GMV increased 14.9 percent. Net sales for Nordstrom Rack increased 6.3 percent.

“We delivered solid results in the second quarter, with topline growth, increased profitability and continued progress in our strategic initiatives,” said Erik Nordstrom, chief executive officer of Nordstrom, Inc. “While our quarterly results were consistent with our previous outlook, customer traffic and demand decelerated significantly beginning in late June, predominantly at Nordstrom Rack. We are adjusting our plans and taking action to navigate this dynamic in the short term, including aligning inventory and expenses to recent trends, and we remain confident in our ability to deliver on our long-term strategic and financial goals.”

In the second quarter, men’s apparel had the strongest growth versus 2021, and shoes, women’s apparel and beauty also had double-digit growth, as customers updated their wardrobes and returned to occasions. Total Anniversary event sales increased 5 percent, including one day of the event that fell in the third quarter.

“We elevated the customer experience and increased engagement during this year’s Anniversary Sale, and we’re proud of our team’s execution and dedication to customers,” said Pete Nordstrom, president and chief brand officer of Nordstrom, Inc. “As we look to the second half of the year, we are aggressively right-sizing our inventory while investing in supply chain and merchandising capabilities that will benefit us in 2023 and beyond.”

As previously announced on August 17, 2022, the board of directors declared a quarterly cash dividend of \$0.19 per share to be paid to shareholders of record at the close of business on August 30, 2022, payable on September 14, 2022. During the second quarter, the Company repurchased 1.5 million shares of its common stock for \$35 million under its \$500 million share repurchase program, which was previously announced as authorized by the board of directors on May 18, 2022. A total capacity of \$465 million remains available under this share repurchase authorization.

## SECOND QUARTER 2022 SUMMARY

- Total Company net sales increased 12.0 percent and GMV increased 12.2 percent compared with the same period in fiscal 2021. The timing shift of the Anniversary Sale, with one day falling into the third quarter of 2022 versus roughly one week in 2021, had a positive impact on net sales of approximately 200 basis points compared with the second quarter of 2021.
- For the Nordstrom banner, net sales increased 14.7 percent, improving sequentially from the first quarter versus pre-pandemic sales levels, and GMV increased 14.9 percent compared with the same period in fiscal 2021. The timing shift of the Anniversary Sale had a positive impact on Nordstrom banner net sales of approximately 400 basis points compared with the second quarter of 2021.
- For the Nordstrom Rack banner, net sales increased 6.3 percent compared with the same period in fiscal 2021, improving sequentially from the first quarter versus pre-pandemic sales levels.
- Digital sales increased 6.3 percent compared with the same period in fiscal 2021. The timing shift of the Anniversary Sale had a positive impact on Company digital sales of approximately 400 basis points compared with the second quarter of 2021. Digital sales represented 38 percent of total sales during the quarter.

<sup>1</sup>Adjusted earnings per share is a non-GAAP financial measure. Refer to the “Adjusted EBIT, Adjusted EBITDA and Adjusted EPS” section of this release for additional information as well as reconciliations between the Company’s GAAP and non-GAAP financial results.

- Gross profit, as a percentage of net sales, of 35.2 percent increased 65 basis points compared with the same period in fiscal 2021 primarily due to leverage on buying and occupancy costs, partially offset by higher markdown rates.
- Ending inventory increased 9.9 percent compared with the same period in fiscal 2021, versus a 12.0 percent increase in sales.
- Selling, general and administrative expenses, as a percentage of net sales, of 32.8 percent decreased 15 basis points compared with the same period in fiscal 2021 primarily due to leverage on higher sales, partially offset by higher labor expense.
- Earnings before interest and tax (“EBIT”) was \$202 million in the second quarter of 2022, compared with \$151 million during the same period in fiscal 2021, primarily due to higher sales, partially offset by higher markdowns and higher labor expense. Adjusted EBIT of \$210 million for the second quarter of 2022 excluded costs associated with the wind-down of Trunk Club.<sup>2</sup>
- Interest expense, net, of \$34 million decreased from \$40 million during the same period in fiscal 2021 as a result of the redemption of \$500 million of unsecured notes in the second quarter of 2021.
- Income tax expense was \$42 million, or 25.2 percent of pretax earnings, compared with \$31 million, or 27.9 percent of pretax earnings, in the same period in fiscal 2021.
- The Company ended the second quarter with \$1.3 billion in available liquidity, including \$494 million in cash and the full \$800 million available on its revolving line of credit. In May 2022, the Company entered into a new \$800 million revolving credit agreement expiring in May 2027, replacing its previous revolving credit agreement that was scheduled to expire in September 2023.

**ADJUSTED EBIT, ADJUSTED EBITDA AND ADJUSTED EPS**  
**(NON-GAAP FINANCIAL MEASURES)**

(unaudited; amounts in millions, except per share amounts)

Adjusted earnings before interest and income taxes (“EBIT”), adjusted earnings before interest, income taxes, depreciation and amortization (“EBITDA”) and adjusted earnings (loss) per diluted share (“EPS”) are key financial metrics and, when used in conjunction with GAAP measures, we believe they provide useful information for evaluating our core business performance, enable comparison of financial results across periods and allow for greater transparency with respect to key metrics used by management for financial and operational decision-making. Adjusted EBIT, adjusted EBITDA and adjusted EPS exclude certain items that we do not consider representative of our core operating performance. The financial measure calculated under GAAP which is most directly comparable to adjusted EBIT and adjusted EBITDA is net earnings. The financial measure calculated under GAAP which is most directly comparable to adjusted EPS is earnings (loss) per diluted share.

Adjusted EBIT, adjusted EBITDA and adjusted EPS are not measures of financial performance under GAAP and should be considered in addition to, and not as a substitute for, net earnings, operating cash flows, earnings (loss) per share, earnings (loss) per diluted share or other financial measures performed in accordance with GAAP. Our method of determining non-GAAP financial measures may differ from other companies’ financial measures and therefore may not be comparable to methods used by other companies.

The following is a reconciliation of net earnings (loss) to adjusted EBIT and adjusted EBITDA:

	Quarter Ended		Six Months Ended	
	July 30, 2022	July 31, 2021	July 30, 2022	July 31, 2021
<b>Net earnings (loss)</b>	\$ 126	\$ 80	\$ 146	\$ (86)

<b>Adjusted EBITDA</b>	<u>\$ 341</u>	<u>\$ 290</u>	<u>\$ 506</u>	<u>\$ 347</u>

The following is a reconciliation of earnings (loss) per diluted share to adjusted EPS:

<b>Adjusted EPS</b>	<u>\$ 0.81</u>	<u>\$ 0.49</u>	<u>\$ 0.75</u>	<u>\$ (0.13)</u>

<sup>1</sup> Due to the anti-dilutive effect resulting from the adjusted net loss, the impact of potentially dilutive shares on the adjusted per share amounts has been omitted from the calculation of weighted-average shares for earnings (loss) per share for the six months ended July 31, 2021.

<sup>2</sup> The income tax impact of non-GAAP adjustments is calculated using the estimated tax rate for the respective non-GAAP adjustment.

**ADJUSTED RETURN ON INVESTED CAPITAL (“ADJUSTED ROIC”)**  
**(NON-GAAP FINANCIAL MEASURE)**

(unaudited; dollars in millions)

We believe that Adjusted ROIC is a useful financial measure for investors in evaluating the efficiency and effectiveness of the capital we have invested in our business to generate returns over time. In addition, we have incorporated it in our executive incentive measures and we believe it is an important indicator of shareholders’ return over the long term.

Adjusted ROIC is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, return on assets, net earnings, total assets or other GAAP financial measures. Our method of calculating non-GAAP financial measures may differ from other companies’ methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to Adjusted ROIC is return on assets. The following shows the components to reconcile the return on assets calculation to Adjusted ROIC:

	<b>Four Quarters Ended</b>	
	<b>July 30, 2022</b>	<b>July 31, 2021</b>
<b>Net earnings</b>	<b>\$ 410</b>	<b>\$ 1</b>
Add (Less): income tax expense (benefit)	153	(72)
Add: interest expense	140	274
Earnings before interest and income tax expense	703	203
Add: operating lease interest <sup>1</sup>	84	92
Adjusted net operating profit	787	295
Less: estimated income tax expense <sup>2</sup>	(214)	(300)
<b>Adjusted net operating profit (loss) after tax</b>	<b>\$ 573</b>	<b>\$ (5)</b>
<b>Average total assets</b>	<b>\$ 9,194</b>	<b>\$ 9,489</b>
Less: average non-current deferred property incentives in excess of operating lease right-of-use (ROU) assets <sup>3</sup>	(214)	(255)
Less: average non-interest bearing current liabilities	(3,396)	(3,267)
<b>Average invested capital</b>	<b>\$ 5,584</b>	<b>\$ 5,967</b>
<b>Return on assets</b>	<b>4.5%</b>	<b>—%</b>
<b>Adjusted ROIC</b>	<b>10.3%</b>	<b>(0.1%)</b>

<sup>1</sup> Operating lease interest is a component of operating lease cost recorded in occupancy costs. We add back operating lease interest for purposes of calculating adjusted net operating profit for consistency with the treatment of interest expense on our debt.

<sup>2</sup> Estimated income tax expense is calculated by multiplying the adjusted net operating profit by the effective tax rate for the trailing twelve month periods ended July 30, 2022 and July 31, 2021. The effective tax rate is calculated by dividing income tax expense (benefit) by earnings (loss) before income taxes for the same trailing twelve month periods.

<sup>3</sup> For leases with property incentives that exceed the ROU assets, we reclassify the amount from assets to other current liabilities and other liabilities on the Condensed Consolidated Balance Sheets. The current and non-current amounts are used to reduce average total assets above, as this better reflects how we manage our business.

**ADJUSTED DEBT TO EBITDAR (NON-GAAP FINANCIAL MEASURE)**

(unaudited; dollars in millions)

Adjusted debt to earnings before interest, income taxes, depreciation, amortization and rent (“EBITDAR”) is one of our key financial metrics and we believe that our debt levels are best analyzed using this measure, as it provides a reflection of our creditworthiness which could impact our credit rating and borrowing costs. This metric is calculated in accordance with the updates in our new Revolver covenant and is a key component in assessing whether our revolving credit facility is secured or unsecured, as well as our ability to make dividend payments and share repurchases. Our goal is to manage debt levels to achieve and maintain investment-grade credit ratings while operating with an efficient capital structure.

Adjusted debt to EBITDAR is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, debt to net earnings, net earnings, debt or other GAAP financial measures. Our method of calculating a non-GAAP financial measure may differ from other companies’ methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to Adjusted debt to EBITDAR is debt to net earnings. The following shows the components to reconcile the debt to net earnings calculation to Adjusted debt to EBITDAR:

	July 30, 2022
<b>Debt</b>	\$ 2,853
Add: operating lease liabilities	1,779
<b>Adjusted debt</b>	<b>\$ 4,632</b>
	<b>Four Quarters Ended July 30, 2022</b>
<b>Net earnings</b>	\$ 410
Add: income tax expense	153
Add: interest expense, net	138
Adjusted earnings before interest and income taxes	701
Add: depreciation and amortization expenses	595
Add: operating lease cost <sup>1</sup>	272
Add: amortization of developer reimbursements <sup>2</sup>	75
Less: other Revolver covenant adjustments <sup>3</sup>	(22)
<b>Adjusted EBITDAR</b>	<b>\$ 1,621</b>
<b>Debt to Net Earnings</b>	<b>7.0</b>
<b>Adjusted debt to EBITDAR</b>	<b>2.9</b>

<sup>1</sup> Operating lease cost is fixed rent expense, including fixed common area maintenance expense, net of developer reimbursement amortization.

<sup>2</sup> Amortization of developer reimbursements is a non-cash reduction of operating lease cost and is therefore added back to operating lease cost for purposes of our Revolver covenant calculation.

<sup>3</sup> Other adjusting items to reconcile net earnings to Adjusted EBITDAR as defined by our Revolver covenant include interest income and certain non-cash charges and other gains and losses where relevant. For the four quarters ended July 30, 2022, other Revolver covenant adjustments primarily included a gain on sale of the Company’s interest in a corporate office building, partially offset by costs associated with the wind-down of Trunk Club.

**FREE CASH FLOW (NON-GAAP FINANCIAL MEASURE)**

(unaudited; amounts in millions)

Free Cash Flow is one of our key liquidity measures and, when used in conjunction with GAAP measures, we believe it provides investors with a meaningful analysis of our ability to generate cash from our business.

Free Cash Flow is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, operating cash flows or other financial measures prepared in accordance with GAAP. Our method of calculating a non-GAAP financial measure may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to Free Cash Flow is net cash provided by operating activities. The following is a reconciliation of net cash provided by operating activities to Free Cash Flow:

	<b>Six Months Ended</b>	
	<b>July 30, 2022</b>	<b>July 31, 2021</b>
<b>Net cash provided by operating activities</b>	<b>\$ 373</b>	<b>\$ 545</b>
Less: capital expenditures	(215)	(217)
Add: change in cash book overdrafts	36	6
<b>Free Cash Flow</b>	<b>\$ 194</b>	<b>\$ 334</b>
