STORE DESIGN: The store will feature all of our newest design concepts. Since our customers' definition of service constantly changes, we're evolving our store environments to help us remain modern and relevant with our customers. Our store will feature a clean, beautiful, single-surface floor throughout the store to give us the flexibility to adjust and evolve departments depending on what our customers in Austin want over time. The store environment will create a sense of discovery, allowing customers to navigate easily and to find new brands they haven't experienced before. We are also incorporating natural light throughout the store to connect the shopping experience in store to the outside world.
